

**TRIDENT DEFENSIVE WEAPONS OPERATOR TRAINER, DEVICE 21B67A****TRAINING CATEGORY:**

SEABASED STRATEGIC SYSTEM

ORIGINATING AGENCY:

CNET

SECURITY CLASSIFICATION:

Device 21B67A is **SECRET** with software and **UNCLASSIFIED** without software.

PURPOSE OF DEVICE:

To provide tactical training at the general operator, or team level for single-ship TRIDENT operations in a simulated hostile environment. Expertise is developed in coordination of sensors, weapons, and tactical evaluation and decision-making.

INTENDED USE:

Shore-based simulated scenario training.

FUNCTIONAL DESCRIPTION:

The Defensive Weapons Subsystem MK 118 Operator Trainer (DWOT) enhances the attack center team's ability to perform the TRIDENT's mission. Realistic simulated scenarios provide immediate feedback on performance.

Simulated equipment includes the MK 48 Torpedo and MK 57 Mobile Submarine Simulator System (MOSS).

Trainer states are run, freeze, restart/playback, and secure.

The instructor controls training through consoles. CRTs monitor the tactical displays and the problem status. Displays may be recorded on hardcopy.

The 21B67A has two (2) AN/UYK-43 (V) processors, one (1) 11/785 processor, and distributed microprocessors.
